

**What is at Stake if  
South Africa's Coal  
Sector Goes Under?**

### **About Sam Tambani Research Institute**

The Sam Tambani Research Institute (SATRI) is a registered Public Benefit, Non-profit Company that was founded by the National Union of Mineworkers (NUM) and Mineworkers Investment Trust (MIT) in 2012.

The Institute's major objective is to undertake research and analysis of substantive and primary issues affecting the welfare of workers and workers' communities in general, but especially workers in the mining, construction and energy sectors of Southern Africa. From the research conducted, to produce publications and recommendations that inform policies and interventions related to the welfare of workers' and their communities.

Recognising that interventions aimed at improving workers and workers' communities welfare have become complex and require a great deal of factual information, SATRI gathers and analyses such information through its targeted research agenda.
